

mymfem::BaseObserver

```
graph BT; heat[heat::Observer] --> mymfem[mymfem::BaseObserver];
```

A UML class diagram illustrating inheritance. The class `heat::Observer` is shown as a white box with a black border at the bottom. The class `mymfem::BaseObserver` is shown as a gray box with a black border at the top. A blue arrow points from the bottom of `heat::Observer` to the bottom of `mymfem::BaseObserver`, indicating that `heat::Observer` inherits from `mymfem::BaseObserver`.

heat::Observer
